

INTER-MOUNTAIN WATERSHED DISTRICT'S DRAINAGE LICENSE REVIEW REQUIREMENTS

- Copy of provincial drainage application
- Profile/survey, in meters, with at least a 3-shot profile with centreline of road, drain bottom, and prairie, including grade line of proposed works; cross-sections with proposed excavation lines in the case of extensive works
- Approximate drainage area
- Google Earth or equivalent satellite image (Bing maps, Manitoba AgriMaps from provincial drainage officers) that include:
 - North arrow
 - Drain names (if applicable)
 - Road numbers (if applicable)
 - Legal land description of the section(s) (i.e., SE 3-23-17W)
 - Relevant culvert locations, lengths, and sizes (diameter)
 - Water flows and directions (arrows indicating flows)
 - Extent of proposed works
- Property ownership map indicating the location and extent of the proposed works
- Culvert inventory (if available)

If sending info by email, please put the affected legal land description in the subject line.
