

**BMP: NITROGEN MANAGEMENT PROJECT – Polymer Coated Urea (PCU) Fertilizer (or SuperU Dual Inhibitor)**

Use of Polymer Coated Urea Fertilizer – 85% increased cost of PCU fertilizer compared to regular nitrogen (up to \$7,000). Applicants cannot apply PCUs and dual inhibitors on the same acres and receive funding for both.

*PCUs and SuperU Dual Inhibitors are funded based on the cost difference on the day of purchase between standard nitrogen fertilizer (46-0-0) and PCU/SuperU products. Please contact your agronomist for standard nitrogen fertilizer rates on your purchase date.*

Polymer Coated Urea Fertilizer Product Name (or SuperU)	Product Cost (\$/MT)	Standard Nitrogen Cost (\$/MT at date of product purchase)	Cost Difference (\$/MT)	# of Metric Tonnes (MT of product purchased)	Cost Difference X Metric Tonnes purchased OFFICE USE	Funding Request (85% of Cost Difference) OFFICE USE	Applicant Initials
